

## *Eidechse* **Battery-Powered Tow Tractor MTE 3/30**

**In-plant transportation  
reliable and**

**... even more comfortable due to**

- excellent driving and suspension performance due to coil springs and shock absorbers on front and rear axle
- cabin mounted on rubber elements
- rear axle with integrated, maintenance-free AC engine, 20 kW
- low entrance height
- multifunctional display showing speed, battery discharging, maintenance intervals, etc.

**... even more economic due to**

- disc brakes on the front axle
- maintenance-free oil bath multiple disc brake
- increased towing capacity
- maintenance-free AC hydraulic engine
- tyres 185 R 14 C at front and rear

**... even more safe due to**

- better sight to rear towing coupling
- stronger frame with ram protection
- three independent brake systems
- excellent sight all around
